Grant Imbo

Designer / Developer

Summary

In the course of more than 11 years, I have been active in the Tech Industry, engaging in various projects that span across both creative and technical domains.

I have experience as a designer, developer, animator, 3D artist, video editor, and other related roles. My skill set is adaptable, and I am capable of adjusting to diverse tasks as needed.

I am always up for learning new things and never get satisfied with an average output, always striving for something better and fresh.

Skills

Throughout my career, I have gained extensive experience integrating numerous tools and software's into my workflow. Here are some of the most commonly used tools in my toolkit.
